

Institutional Health

It's not just what we do, but how we do it

Expectations

Commitment, Loyalty & Trust

The driving force behind thriving organizations

Professionalism

The art of leading oneself

Value/Values

Power & Authority

The heart of leadership is influence

Barriers

Behavior Psychology

We can trust that people will do what they perceive is in their own best interest

★ People want to be a part of something bigger than themselves

★ Change what we mean by "Total Force" - We recruit an Airman, we retain a Family

Tough Habits

Thinking Paradox & Systematic Thinking

If we want to affect behavior, we must influence perceptions...

Communication

"Seek first to understand..."

Personal Biases & Blind Spots

...“The single most destructive roadblock to an effective leader.”

Tools

AF Professionalism is centrally expected but locally owned!

What spoke to you?

What did it say?

What are you going to do about it?
